Part 4. Safeguarding of relevant funds

The firm safeguards relevant funds by segregation, in designated safeguarding accounts that the banks have acknowledged in writing: ACB-SG-01 at Albion Clearing Bank for GBP, and BM-SG-02 at Banco Meridional, S.A. for EUR, opened on 12 January 2026 for UK merchants' EUR balances. Funds received for customers reach a safeguarding account by the end of the business day after receipt.

At 30 June 2026 the firm held £1.02bn of customer funds: £0.94bn in GBP and €95m (about £0.08bn) in EUR.

4.1 Reconciliation

Every UK business day, by 11:00, Treasury Operations compares the requirement (e-money outstanding plus Checkout settlements in transit) with the resource (cleared balances on the safeguarding accounts) for each currency, as at the 17:00 cut-off on the previous business day. Any shortfall is topped up from the firm's own funds by 12:00. Since March 2026 Treasury Operations also checks at 15:00 that each bank's statement file has arrived.

4.2 Safeguarding audit

Fernside & Co LLP completed the annual safeguarding audit for the year ended 31 December 2025 on 27 March 2026 with a reasonable assurance opinion and two low-rated findings, both closed by 30 April 2026. The FCA's new safeguarding rules applied from 7 May 2026; the firm has submitted a monthly safeguarding return since May 2026.

Breach SG-2025-02. The shortfall above came from a Payouts settlement file that was sent to Albion Clearing Bank twice on Friday 14 November 2025, so £1,284,316.40 left ACB-SG-01 twice. The reconciliation of this position found it at 09:40 on Monday 17 November 2025. The firm topped up ACB-SG-01 from its own funds at 11:05, before the 12:00 deadline, and recovered the duplicate payments from the bank by 19 November. Because relevant funds were short over a weekend, the firm reported the breach to the FCA on 18 November 2025. The Safeguarding Committee closed it on 2 December 2025, after a duplicate-file check was added to the payouts batch engine.

Breach SG-2026-01. The reconciliation of this position was due by 11:00 on Thursday 12 March 2026 and was finished at 11:20, because the reconciliation tool could not load Banco Meridional's statement file after the bank changed its file format. It found no shortfall. A late reconciliation breaches the firm's safeguarding procedure, so the firm reported it to the FCA on 13 March 2026. Treasury Operations now checks at 15:00 every business day that each bank's statement file has arrived.

Major incident MI-2026-03. On 6 February 2026, from 12:14 to 12:55 UK time, Kestrel Checkout declined 61,408 card authorisations because a TLS certificate on the link to the card processor had expired. The incident was classified P1 at 12:22 and reported to the FCA at 14:05. Merchants lost an estimated £2.9m of sales, and the firm paid £148,600.00 in goodwill credits. The certificate renewal job had been switched off during a migration on 20 January 2026; the Platform team now monitors every renewal.
