Pricing FAQ for Sales and Customer Success

Maintained by Chloe Dubois (Account Executive) with Jake Morrison (Head of Sales). Last updated 2 September 2026. Every price here comes from price list 2026.2, effective 1 April 2026. If the two ever disagree, the price list wins; tell Chloe so this FAQ can be fixed.

Plans and SKUs

What is the difference between KC-STD-01 and KC-STD-12? Both are Checkout Standard with no monthly fee. KC-STD-01 is monthly rolling at 1.49% + 20p for UK and EEA consumer cards. KC-STD-12 is a 12-month term at 1.39% + 20p. Non-UK, non-EEA and commercial cards are 2.49% + 20p on KC-STD-01 and 2.39% + 20p on KC-STD-12.

When should a merchant move to Checkout Pro? Checkout Pro costs £49 a month on KC-PRO-01 or £39 a month on KC-PRO-12, and charges 1.19% + 15p or 1.09% + 15p. On UK consumer cards, KC-PRO-12 is cheaper than KC-STD-12 once a merchant processes about £9,200 a month at an average ticket of £40. Pro also brings the 99.95% availability commitment, same-day settlement to a Kestrel Accounts balance and the £20,000 single transaction limit.

Why did KC-PRO-01 go up? It rose from £45 to £49 a month on 1 April 2026 (price list 2026.2). Like every 2026.2 change, the new price applies to new contracts and renewals only, so merchants already on KC-PRO-01 keep £45 until they renew. KC-PRO-12 stayed at £39.

Can a merchant switch from monthly to a 12-month plan mid-month? Yes. The 12-month term starts on the day of the switch, and the first invoice is pro-rated. A move the other way, from 12 months to monthly, counts as ending the 12-month plan early.

What does it cost to leave a 12-month plan early? The remaining monthly fees for the term, capped at £300 or €350 per plan. KC-STD-12 has no monthly fee, so leaving it early costs nothing; the merchant simply goes back to KC-STD-01 rates.

Terminals

Rent or buy a terminal? KC-TERM-01 rents a Kestrel Tap T2 for £15 a month per device, with free replacement. KC-TERM-BUY is a one-off £149 per device with a 12-month warranty. Buying pays back after 10 months, so recommend buying to merchants who expect to stay longer than a year.

Can we give terminal rental free? Up to 3 free months of KC-TERM-01 per site, only for merchants signing KC-PRO-12, and only with Head of Sales approval.

Accounts and Payouts

Is KA-PLUS-12 billed monthly? No. KA-PLUS-12 is £12 a month billed yearly in advance, so the merchant pays £144 (or €168) at the start of the term. KA-PLUS-01 is £14 a month billed monthly.

How much is an extra card? KA-CARD-01 is £3 (€3.50) a month per card beyond the plan's allowance. It was £2.50 before 1 April 2026.

What happens when a KP-BULK-500 merchant sends more than 500 payouts? The first 500 payouts each month are covered by the £125 fee. Each extra payout costs 30p (€0.35). Unused payouts do not roll over. If a merchant regularly sends more than about 1,420 payouts a month, KP-BULK-2000 at £400 is cheaper.

What about pay as you go? KP-PAYG-01 has no monthly fee and charges 35p per UK payout or €0.45 per SEPA payout. It is cheaper than KP-BULK-500 below 357 payouts a month.

Can merchants pay suppliers abroad? Yes, with the KP-FX-01 add-on: 0.6% above the mid-market rate, minimum £2 per payout.

Is KP-BULK-500 the same as error KP-500? No. SKUs always have letters after the prefix (KP-BULK-500). Payments API error codes are four digits (for example KP-5003). There is no code KP-500.

Discounts

How much can I discount? On monthly fees, an Account Executive can give up to 10%, the Head of Sales up to 15%, and anything above 15% needs the CFO, as the Delegated Authority Matrix sets out. Any transaction rate below the plan rate is a non-standard pricing term: it goes through deal desk to the CFO. Nothing goes below the floor of 0.95% + 10p.

Do we price-match? Not automatically. If a merchant shows a written competing offer, take it to deal desk with their last 3 months of card volume. Deal desk answers within 2 business days.

What do Brightwell Payroll referrals get? 20% off KP-BULK-500 or KP-BULK-2000 for the first 3 months. This is a partner price, approved by the CFO as part of the Brightwell agreement, so it does not use your discount authority. Tag the opportunity with the Brightwell referral source.

Fees customers ask about

Are there set-up fees? No, on any plan.

What is the chargeback fee? £15 (€17) per chargeback, refunded if the merchant wins the dispute.

Do refunds cost anything? Refunds are free, but the original transaction fee is not returned.

What is the Checkout Pro availability commitment? 99.95% monthly availability. Below that, affected Checkout Pro merchants receive a service credit on the next invoice: 10% of the monthly fee for availability from 99.0% to below 99.95%, 25% from 95.0% to below 99.0%, and 50% below 95.0%. After the incident on 17 August 2026, August availability was 99.89%, so affected Pro merchants received the 10% credit. Customer Success handles credits; see the Customer Success Escalation Guide.
